Features

Introducing... Mobile Banking a simple yet powerful connection to your accounts. whenever you need it... Wherever you go. Glance over your balances and review transactions. Transfer money in seconds. Pay bills from anywhere. And use Popmoney to send money with just an email or mobile phone number. You can even deposit checks... anytime. Whether you download our app... use your phones mobile browser... or take advantage of our text banking... our strong multilayer security... helps protect your information. Wherever you go.

Secure Login

Accessing your accounts using our mobile app is very secure. In fact when you log in with your smart phone... you're accessing with the same multilayer security that's used as if you logged in from your desktop computer. We confirm your credentials along with the device your using. This strong approach to security provides simple convenient access to your accounts. And powerful protection against online fraud. The first time you login you'll be asked to enter your User ID... which can be saved for future logins. This added convenience provides a simple secure login... while making it easy for multiple users to access their personal accounts from the same device. Next, Enter your password. When ready, Continue. Occasionally, for added security... you may be asked to answer one of your security questions. Before you are securely... logged in. If any functionality has changed since the last time you logged in... you may be offered a quick preview of each of the enhancements. simply swipe to learn more. Then close the window when you're ready to continue. That's it. From the More option... you can change the currently logged in User... as well as forget users that are no longer needed. Plus if you'd like... you can enable instant balance. which lets you securely preview your account balances... right from your password screen.

A Quick Tour

With... Mobile Banking it's easy to stay connected to your accounts, no matter where you are. Simply login to get an at-a-glance view of your balances. from here, you can also transfer money... send payments, make deposits... and perform a variety of other convenient tasks... quickly and securely. Accounts is the first screen you'll see. It offers an at-a-glance view of your balances. And a simple tap displays its' transaction history. To transfer funds, just select the accounts... and enter an amount. Sending money is just as easy. You can quickly pay your bills... and securely send money to another person... with just an email or mobile number. And the money moves directly from your account to their account. Need to make a deposit? Depositing a check is as easy as snapping a photo. And when someone sends you money, accept it... and tell us which account to make your deposit. More is where you'll find our additional services... including a few helpful links. It's simple... yet powerful account management for your finances. Wherever you are... whenever you need it.

Accounts

Monitoring your account activity on the go is simple. Right away... you'll see an overview of your accounts, including account names... partial account numbers, and current balances. Selecting an account displays the details, including the accounts available balance. Below, you'll see your recent transaction history... which may include transactions that are still pending. Simply scroll thru the list to view more.

Transfers

Transferring money between your accounts is easy... And transfers can be made at any time. from the transfers option simply select the accounts... and enter the amount you'd like to transfer. Review your information... and if correct, continue, then confirm. o submit your transfer. That's it. You'll see your updated balance... along with a confirmation number verifying your transfer is complete.

Payments: Pay A Biller

With our mobile app... managing your bills has never been easier... and you can make payments from almost anywhere. From Payments you have the choice of paying any biller you've previously set up... from our full desktop site. or, sending money through our personal payment service. To pay a biller... just select a biller from your list. And if they offer eBills, you'll see the eBills icon next to their name. Just tell us how much to pay. It's just that simple. To pay a bill... Just enter the amount, and if you'd like, change the date. and if you'd like... change the date. That's it. Your payment will be scheduled for the selected date and added to your scheduled payments. From here, you can return to your accounts or make another payment.

Payments: Pay A Person

If you've signed up for our Personal payment service... using our mobile app to securely send money from your bank account... to almost anyone... with just an email or mobile number... is a piece of cake. From Payments... just select Pay A Person. If it's a new person you can either add them by entering their information. or, by simply importing them from your phones contacts. For those people you've paid before... you can simply select how you'd like them to be notified... then, enter the amount... along with a message. When ready... Continue. Now, select a delivery speed... review the details... and proceed. That's all it takes. The confirmation verifies your payment is complete... and the person receiving the money is notified that money is waiting for them. Along with simple instructions for accepting it. You can check the status of your activity at any time.

Deposits: Checks

Making a deposit with our mobile app is quick and secure. From Deposit you can deposit your paper checks... as well as the money you receive thru Popmoney. To deposit a check... Begin by endorsing the check you'll be depositing. and include the words For Mobile Deposit Only as well. Then, when ready, select Deposit Check. Choose the account to make your deposit, and enter the amount. Now, take a photo of the front of the check. Photograph the check against a background that gives you strong contrast... and remove any objects that show up in the picture. Also ensure the entire check is visible, in focus and well-lit. If it's clear, accept it. Repeat this process for the back of the check. Once both images have been captured, continue. Review your deposit and if correct, confirm it. That's it. You can check the status of your deposit at anytime. Statuses include pending, failed... and those which have been accepted. When depositing checks using your smart phone... it's recommended that you write a note on the original document... reminding you that the check has been deposited... then storing the document for a specified period of time. Before safely destroying it.

Deposits: Popmoney

Receiving money sent thru our trusted Popmoney network is simple and secure. In fact it's so simple that if you've signed up for our Popmoney service... and enabled automatic deposit your money is deposited automatically. All that's left for you is to decide whether to spend it or save it! Here's how it works. When someone sends you money you'll be notified by either text message... or email letting you know that money is waiting for you. If automatic deposit is turned off... Simply login, select Deposits... then Receive Money from People. And if you have an incoming payment waiting for you, you'll see it in the list. Including the person who sent you money... the date the money was sent and the amount. Just tap and tell us which account to deposit your funds. Then, confirm it. The money will be deposited...
